

BROWN GOLDSTEIN LEVY

Products Liability

Manufacturers and sellers of products have an obligation to assure that their products are safely designed and manufactured, with adequate notice of their dangers. Most manufacturers live up to that obligation. Unfortunately, a few do not, which can cause serious injuries or death.

Brown, Goldstein & Levy has successfully represented clients injured when a golf cart rolled over, when a handle broke off a pot full of boiling water badly burning a young girl, and when an exterminator poisoned a house with chemicals. We also brought the first cases in the country against gun manufacturers for their failure to make their guns childproof.

We have the experience and record of success necessary to obtain just compensation if you or a loved one is injured by a defective product.
